

WHEN I GET OLDER.....

DIGITAL PHOTOGRAPHY

ASSIGNMENT

Your task is to make 2 to 3 photographs exploring the theme 'When I Get Older.'

Look back at your mind map for ideas that you may like to explore. Some ideas could include.....

- **What you want to do when you get older.**
- **What the world may be like when you're older.**
- **Changes that may happen between now and then.**
- **Possessions.**

Using the skills we have learnt so far using photoshop, create your images using a variety of methods.

- 1. Take photographs using your laptops.**
- 2. Find images that you may like to use as part of a collage.**
- 3. You can combine drawings and photographs.**

You must submit

- **Plans for each of your photographs
(A sketch of what you would like your final image to resemble and how you are going to make it.)**
- **2 to 3 final images.**

We will be working on this during class time, however I recommend you do some research at home and collect other images that you may like to use as part of your collage.
